

**Do you remember last winter?**

**Beat the chill by joining Grenson Motors on Saturday 12th November 2011 for our Winter Event**

Grenson Motors would like to invite you to come and join us for a winter check. Whilst you wait we will be holding a number of demonstrations on how to keep your car in top condition for the cold months ahead. Some of these demonstrations will be specifically geared towards female motorists.

We have also teamed up with members of the local Institute of Advanced Motorists Group, Crewe and Nantwich Advanced Motorists, to offer you a complimentary driving assessment, and for the younger drivers in the family, give advice on how to lower insurance premiums with the IAM's Skill for Life programme. Members of CANAM will be on hand throughout the day to offer advice on driving in treacherous conditions like snow, fog and heavy rain.

### **A small price to pay as the weather turns colder**

We carry out a comprehensive winter check which includes anti freeze, windscreen wash, tyre pressure & tread check, key batteries changed, all lights & levels checked, battery charge & condition and a full electronic vehicle health check. Offer is available on **any make and model**.

**All for only £24.99**

**Plus** book now and receive a free treatment of Duxback a revolutionary glass treatment that keeps glass as it should be - see through. Rain sleet and snow simply beads, sheds and rolls off, ice does not stick. Duxback even repels dirt, making your windscreen, side glass or rear glass cleaner and clearer for far longer and if it does need cleaning a whole lot easier to clean.

**Call 01270 507490 to book, we look forward to seeing you**

**Regards**

**The Grenson Team**
